Firearm Category: 99/44 Deerfield Carbine (Blued)

### Model 99/44 Deerfield Carbine

S100 Scope Rings for this model are of uniform height. Individual rings (of the same height) can be mounted in either the front or rear position on the receiver. Scope ring sets are sized to raise the center line of the scope by 1/8" increments from "low" through "extra high."

Application:

LOW scope rings generally will accept up to a 32mm or smaller scope objective diameter

MEDIUM scope rings generally will accept up to a 42mm or smaller scope objective diameter

HIGH scope rings generally will accept up to a 52mm or smaller scope objective diameter

EXTRA-HIGH scope rings generally will accept up to a 62mm or smaller scope objective diameter

SINGLE OFFSET scope rings generally will bring scope back 1/2" for eye relief

DOUBLE OFFSET scope rings generally will bring scope back 1" for eye relief
